

# About Us

Lighthouse Chess Club was founded on 24th May 2017 as an answer to the need for formal chess instruction in Mombasa with a view to developing talented chess players in schools and the community. Apart from helping schools develop chess clubs we also have plans to introduce chess research with a view to using chess as a tool to improve education standards in the country.

## Motto

Working together towards a superior position.

## Vision

To produce grandmasters in Kenya and introduce chess in the school curriculum.

## Mission

To be an instructional high-profile chess organization that uses chess as an educational tool in Kenya as well as raising the standards of awareness, coaching, and competitive play in schools, institutions and new clubs

The value of chess as a tool for education & social benefits was first recognized by Benjamin Franklin in 1786 Chess enhances overall personality & teaches children invaluable lessons that positively impact them in both; school and life at home. The game of chess teaches important life skills, such as emotional intelligence, thinking beyond the present moment, and demonstrating sportsmanship.
